

Ro'Tag D11 HF

This small tag is commonly used in industrial environments for tools identification, asset tracking...

Other sizes are also available : D8mm or D6.5mm.

The tag embarks RFID on ISO 15693 standard with an Icode Sli chip.

Key features

- 13,56 MHz
- Among smallest HF tags of the market
- 1K-bit memory

Applications

Goods or objects identification, asset tracking, tool traceability...

Functional specifications

Type	HF
Frequency	13,56 MHz
Air interface protocol	ISO 15693 – ISO 18000-3
IC Type	NXP Icode Sli
Memory	1K-bit
Data retention	10 years
Write cycles	Maximum 100 000
Functionalities	Read/write

Physical specifications

Dimensions / Weight	Diameter 11 x 2,5mm
Color	Black

Environmental and industry compliance

IP classification	IP66
Temperature scale	-20°C to +90°C

Item code

RTD110587	Ro'Tag D11, HF, ISO15693, NXP ICODE SLI, black
