

AX'Label Classic for liquid container 73x20 UHF

Designed for identification and traceability of glass or plastic bottles or flasks, this UHF label offers excellent reading performance close to liquids.

Personnalization

Printing, encoding (GIAI, GTIN...), adhesive type...

Examples of application

Wines and spirits, cosmetics, retail and healthcare.

Functional specifications

Type	UHF
Frequency	Global (860- 960MHz)
Air interface protocol	EPC Global Class1Gen2; ISO 18000-6C
IC Type	UCODE 8
Memory	EPC 128bits, TID: 96bit
Data retention	20 years
Write cycles	100, 000 times
Functionalities	Read/write

Physical specifications

Dimensions	73 x 20mm
Material	Soft PET
Mounting methods	Permanent adhesive
Packaging	2000 labels/roll
Applicable surface	Glass or plastic liquid containers (bottles, flasks, etc.)

Environmental and industry compliance

Operating temperature	-40°C to +85°C
Storage temperature	-40°C to +85°C

Item code

ETUHF1967EU	AX'Label UHF, EPC Class1 Gen2, PET, 73x20mm
