

Tomorrow's RFID is being invented today

ABOUT US

RFID manufacturer and expert

We provide innovative and sustainable RFID hardware solutions to support organizations in their digitalization. Our core business is the design of customized products, but we also offer a complete range of standard products: identifiers, mobile readers, fixed readers and OEMs.

We are members of :

Sustainability is our priority #ActWithAXEM

Our contribution to the Sustainable Development Goals (SDGs)

We are committed to a sustainable and inclusive world. We have identified 4 main SDGs that are perfectly aligned with our purpose and on which we have a significant impact.

Promote gender equality

Promote sustainable industrialization and encourage innovation

Reduce pay inequalities

Set up sustainable consumption and production patterns

Our commitments earned us several awards

Prizes:

We are supported by:

OUR SOLUTIONS TAILORED TO YOUR BUSINESS

Outstanding performance in all industrial environments

Laundry

Keep track of your linen and take the control of your workflow

Health

Reinforce patients' safety and upgrade your healthcare services

Construction

Track your materials and manage your equipment in a few clicks

Logistics

Control and optimize your workflow

PPE

Ensure safety in the workplace through the effective management of personal protective equipment

Automotive

Automate production processes

Energy

Optimize material flows, ensure greater safety and boost productivity

Defense

Manage and secure military equipment and supplies

Railway

Optimize operational safety and efficiency and ease predictive maintenance

OUR CUSTOMIZED OFFER

More than a service, customized solutions is our expertise

Need a 100% traceability solution customized to your project? Let's design it together! We design, manufacture and supply customized RFID tags and readers for our customers in all industries.

OUR STANDARD OFFER

A complete range of RFID hardware solutions

OUR SERVICES

Services for smooth implementation of your RFID projects

Discover our wide range of services for identifiers, readers and mobile terminals:

- Software & driver support,
- AXEM Care warranty extension,
- Technical support, etc.

OUR PROGRAM FOR PARTNERS

AXEM Alliance: a path for mutual growth

Join our international network of partners. The AXEM Alliance program is dedicated to system integrators who provide software solutions coupled with RFID hardware solutions.

Our partner program rewards the loyalty and talent of our network of systems integrators with access to exclusive content and services.

« Let's imagine
tomorrow's RFID! »

THE EUROPEAN LEADER IN THE DESIGN AND INDUSTRIALIZATION OF CUSTOMIZED PRODUCTS

AXEM Lab, our innovation center

In our RFID Lab, we innovate to create customized RFID solutions for our customers in all sectors. In the AXEM Lab, tomorrow's RFID is being invented today.

Scan the QR code and schedule a visit in the AXEM Lab.

Team

Engineers, PhDs and PhDs students specializing in RFID and semiconductors.

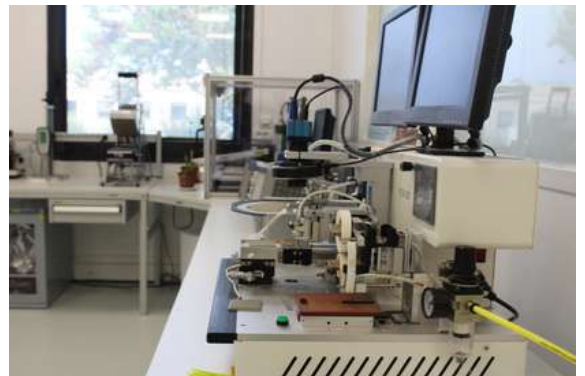

Patents

Patents registered.
Other projects under development.

Research

Partnerships with other Research and Development Laboratories.
