

## AX'Label Windscreen

AX'Label Windscreen is applicable on glass surfaces such as inside or outside windshield of vehicles. It enables long distance identification of vehicles.

Thanks to its design, this secured RAIN RFID (UHF) label cannot be removed without being damaged.

The windshield tag is customizable by printing.

For use outdoor, reinforce your AX'Label Windscreen with the Protect + protective film. Your AX'Label Windscreen will resist water, dust, abrasion, and UV rays.

### Applications

Vehicle fleets management, vehicle access control, parking management...

### Functional specifications

Type	RAIN RFID (UHF)
Frequency	865-868 MHz (EU) / 902-928 MHz (US)
Air interface protocol	ISO 18000-6C EPC Class1 Gen2
IC Type	Alien Higgs-3
Memory	EPC: 96 bits (up to 480 bits), User: 512 bits, TID: 64bits
Data retention	Up to 50 years
Write Cycles	100 000 times
Functionalities	Read/write

### Physical specifications

Size	100*28mm
Mounting Methods	Reinforced adhesive
Packaging	Conditioning by roll of 1000 on 76mm core
